

SA IS BUILDING → TO CONNECT MORE PEOPLE WITH WATER

Community update on water and wastewater works

October 2025

Last month marked one year since the first pipes were laid and more than 20,000 metres of new water and wastewater pipe has already been installed. This work is helping unlock land for thousands of new homes across Adelaide's north.

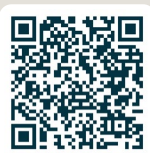

The first project is now complete, with 94 metres of new wastewater mains and 4 new inspection points installed at the Bellchambers and Stebonheath Road roundabout in Edinburgh North. Progress is continuing across the region, with works on and around Curtis Road now more than 79 per cent complete for wastewater pipe installation and 75 per cent for water mains. Along Andrews Road, multiple crews have helped fast-track wastewater pipe installation, which has now reached more than 56 per cent complete. New water main installation is also now underway on Robert Road, Virginia.

We appreciated the chance to connect with the community at the Gawler Show in August and have been pleased to hear positive feedback about how we're working to minimise disruption while keeping everyone informed. As these essential works continue, we'll stay closely connected and keep sharing updates – check Water Talks for the latest on timelines and traffic impacts.

Stay informed

- Get details about works near you - scan the QR code or call **1300 981 233**
- Sign up for updates - receive this newsletter and updates about works in your inbox
- Need information in your language? Look for our interpreter service online.

Delivered by

Works near you

If you live in a street or suburb affected by the works, you may have already been contacted by our team, or we'll contact you before construction begins.

For more details of work locations and dates, visit watertalks.sawater.com.au.

Blakeview

Works for water pipe installation along Craigmores Road between Bentley Road and Adams Road until late 2025.

Curtis Road

Night works and occasional day works for water/wastewater pipe installation are continuing along Curtis Road between Stebonheath Road and Andrews Road until early 2026. Additional crews are working in this area to fast-track works.

Elizabeth North and Davoren Park

Further works along the pipe route will continue until late 2025 to complete the network upgrade. Reinstatement will also take place progressively during this time.

Gawler East, Gawler Belt and Concordia

Wastewater pipe installation along Paternoster Road, Reid until mid-2026.

Wastewater pipe installation along Redbanks Road, Kentish Road and Twartz Road, Gawler Belt until late 2025.

Further works along the water pipe route on Martin Road and Sunnydale Road will continue until late 2025 to complete the network upgrade.

Andrews Road

Night works for wastewater pipe installation continue along Angle Vale Road, Munno Para Downs until early 2026.

Day works for wastewater pipe installation continue along Andrews Road until early to mid-2026.

Virginia

Day works for water pipe installation on Robert Road, between Angle Vale Road and Moloney Road from late September until early November 2025.

Further works along the pipe route on Angle Vale Road will continue until late 2025 to complete the water network upgrade. Reinstatement will also take place progressively during this time.

Please note: Dates are subject to change based on program requirements and weather conditions.

Progress of water and wastewater network expansion

September 2024 - September 2025

This map is accurate at the time of publishing. Visit [Water Talks](#) for the latest updates.

What to expect

- Most works will take place Mondays to Fridays from 6am to 5pm and on some Saturdays.
- Minor delays, traffic changes and detours, and some noise, vibration and dust.
- Some night works.

Share your feedback

“A big shout out to all the contractors laying pipes in Sunnydale – they have been polite, courteous and accommodating whilst working in the street, making sure residents can get in and out and cleaning up as much as they can after themselves.” **Jeanne, local community member via Facebook.**

Harrison from Smithfield got in touch after receiving one of our project notifications and registering for updates. He complimented the team on the efforts to keep him informed and said the traffic management signage around the works has been clear and helpful.
