

13 May 2025

Moana Growth Project – Albany Way investigation works on Thursday 15 May 2025

SA Water together with McConnell Diona Joint Venture (MDJV) are installing a new water main to support growth in the Moana area.

What we are doing and when

We will be conducting investigation works on Albany Way this Thursday 15 May from 7am to 5pm

What to expect

- During one day shift, crews require the use of a *section of one lane* on Albany Way (near the Commercial Road intersection).
- **Two-way access in/out of Albany Way will be maintained at all times via one-lane stop/go.**
- Drivers may experience some delay, accordingly, please plan trips ahead of time.
- Traffic controllers and traffic management will be in place.
- We ask all to drive to conditions and follow the traffic management in place.

Future impact (early-June) to Albany Way

- As the project progresses, a tie-in of the new main will be required and works will cross over this same section of Albany Way. This work will be completed at the **beginning of June** and will impact traffic in the same way for approximately one-night shift.
- Again, two-way access in/out of Albany Way **will be maintained at all times** via one-lane stop/go traffic management. We will notify residents of the date of these works via large signage and on Water Talks.

Thank you for your patience as we complete these important works.

More information

Please view our Water Talks page to read more about the project by visiting watertalks.sawater.com.au/moana-growth or scanning the QR code.
