

SA IS BUILDING → TO CONNECT MORE PEOPLE WITH WATER

Community update on water and wastewater works

August 2025

It's been nearly 12 months since the first pipes were laid, and crews are continuing to work across Adelaide's northern suburbs to deliver essential water and wastewater infrastructure. More than 15,000 metres of new pipe is now in the ground, with up to 16 construction crews working at any one time.

To help reduce impacts on local communities, we're using trenchless construction methods in some places, working outside of peak hours and staying within road verges wherever possible. Along Curtis Road, where works have been underway for more than a month between Main North Road and Andrews Road, most activity is happening at night to minimise disruption on this busy route.

These works form part of a \$1.5 billion investment through the State Government's Housing Roadmap - supporting housing growth and new communities while keeping services running smoothly for everyone.

Thanks for your continued patience as our works move through your neighbourhood. Traffic management is in place to guide you safely around our worksites and we encourage you to allow extra time when travelling through the area.

Delivered by

Works near you

If you live in a street or suburb affected by the works, you may have already been contacted by our team, or we'll contact you before construction begins.

For more details of work locations and dates, visit watertalks.sawater.com.au.

Edinburgh North

Wastewater pipe installation continues at the intersection of Bellchambers and Stebonheath Roads until the end of August 2025.

Elizabeth North and Davoren Park

Night works for water pipe installation at the intersection of Woodford Road, Main North Road and Midway Road until the end of August 2025.

Further works will take place at several points along the pipeline route until late 2025 to complete the network upgrade.

Gawler East, Gawler Belt and Concordia

Wastewater pipe installation along Paternoster Road, Reid until late 2025.

Wastewater pipe installation along Redbanks Road, Gawler Belt from August until late September 2025.

Wastewater pipe installation along Kentish Road, Gawler Belt until early October 2025.

Water pipe installation continues along Sunnysdale Avenue, progressing north and across the Gawler train line until late 2025.

Munno Para Downs and Munno Para West

Nightworks for wastewater pipe installation continue along Angle Vale Road, Munno Para Downs until early 2026.

Wastewater pipe installation continues along Andrews Road until early to mid 2026.

Curtis Road and surrounds – night works

Coventry Road roundabout to Sterling Court – water pipe installation underway and continuing until mid-August 2025.

Greenwood Crescent to Hodby Crescent – water pipe installation underway and continuing until mid-August 2025.

President Avenue to Andrews Road – wastewater pipe installation underway and continuing until late 2025.

Featherstone Road to Stebonheath Road – water pipe installation from mid-2025 and continuing until September 2025.

Virginia

Further night works will take place at several points along the pipeline route until late 2025 to complete the network upgrade.

Dates are subject to change based on program requirements and weather conditions.

What to expect

- Most works will take place Mondays to Fridays from 6am to 5pm and on some Saturdays.
- Minor delays, traffic changes and detours, and some noise, vibration and dust.
- Some night works.

To find out about the works in your area visit watertalks.sawater.com.au

Project spotlight

We're using a unique construction method to help reduce disruption while we install underground pipes for our expanding wastewater network.

Called micro-tunnelling, this technique allows us to install pipes without digging large trenches. Instead, a remote-controlled machine creates an underground tunnel, guided by lasers for accuracy. Pipes are then pushed through the tunnel using a jacking system.

With minimal digging involved, there's less disruption to roads and local traffic, and less soil to remove, helping us complete the work more efficiently and with a smaller environmental impact.

Heading to the Gawler Show?

Come and visit the SA Water stand at the Gawler Show on Saturday 23 and Sunday 24 August, at Nixon Terrace, Gawler. Our friendly engagement team will be there to chat and answer your questions about our works in Adelaide's northern suburbs.

Share your feedback

Blakeview resident Bridgette got in touch to thank our team for the strong communication and ongoing engagement.

"The information I've received really helps me understand what's going on – it's clear, informative and very valuable," **Bridgette said.**

Community BBQ thanks locals

More than 130 residents joined our team for a community BBQ in Elizabeth. It was a valuable opportunity to say thank you in person for their patience during construction.

“We’ve sincerely appreciated all the communication and quick adaptations from the team on site to make our lives easier during the works. We’ve been looking forward to this BBQ to personally thank you all,”
shared one resident.

As we upgrade our water and wastewater networks, we’d love to hear from you.

Your feedback helps us understand what’s working well and where we can improve.

Scan the QR code to **have your say.**

Thanks to the Playford Elizabeth Lions Club for running the BBQ.

Want to chat?

We’re always happy to hear your questions and feedback.
