

Community update on water and wastewater works

April 2025

SA Water's work to expand and upgrade its network is well underway in the northern suburbs as part of the State Government's Housing Roadmap. Since the last newsletter, significant progress has been made, including laying more than 3,000 metres of new water mains in Virginia, Elizabeth North and Gawler East. These upgrades are a vital part of supporting South Australia's growing communities, ensuring reliable water and wastewater services for more than 11,000 new homes.

In the coming weeks, you'll see work continuing in Elizabeth North, Davoren Park, Virginia and Gawler East, and starting in Andrews Farm, Munno Para Downs, Munno Para West, Sandy Creek, Blakeview, Edinburgh and Edinburgh North. We'll keep you updated on what's happening and what to expect with traffic changes and other potential disruptions.

Works near you

If you live in a street or suburb affected by the works, you may have already been contacted by our team, or we will contact you before construction begins.

For more details of work locations and dates, visit watertalks.sawater.com.au

Edinburgh North

Date	Work
April - early July 2025	Installation of 86 metres of new wastewater mains and 3 inspection points in the north-eastern quadrant of the Bellchambers and Stebonheath Roads roundabout.
Late April – early May 2025	Wastewater pipeline installation along Andrews Road: • from the Northern Community Village, heading north to the Womma Road intersection • heading north from the Bellchambers Road/Angle Vale Road intersection.
Late April 2025	Works on Andrews Road, north of Hutton Avenue.

Blakeview to Munno Para West

Date	Work
April – October 2025	Wastewater pipeline installation along Curtis Road between Andrews Road and President Avenue.
April 2025 – late 2026	Wastewater pipeline installation along Andrews Road and Angle Vale Road (between Andrews Road and Stebonheath Road).
March - July 2025	Water pipeline installation from the Craigmore and Bentley Roads intersection, moving west towards Main North Road.

Elizabeth North and Davoren Park

Date	Work
April – July 2025	Pipes will be laid from two directions toward Broadmeadows train station: • eastbound: Heytesbury Road, Bishopstone Road, Meadows Lane, and Gerald Boulevard • westbound: Whiteparish Road, Old Sarum Road, Donnington Road, and Whiting Court.

Reid to Gawler Belt

Date	Work
April 2025 – late 2025	Wastewater pipeline installation along Twartz Road toward Kentish Road and Paternoster Road.
Mid 2025 – mid 2026	Works for installation of new pump station on Davidson Road, Reid.

Sandy Creek

Date	Work
March – 2026	Off Kalperri Road – construction and installation of 2 new water storage tanks, a control valve building and underground trunk mains connecting to the Barossa trunk main.

Continuing works

- Angle Vale Road, Virginia until July 2025 (night works)
- Martin Road, Concordia until late 2025

What to expect

- most works will take place Mondays to Fridays from 6am to 5pm and on some Saturdays
- minor delays, traffic changes and detours, and some noise, vibration and dust
- some night works.

Project spotlight

New underground works completed at Petherton Road roundabout

Together with our major framework partner, McConnell Dowell and Diona Joint Venture (MDJV), we completed a major underground upgrade at the Peachey Road/Petherton Road roundabout as part of critical infrastructure works in Davoren Park. This complex task involved navigating 6 underground services, including stormwater, high-pressure gas, and recycled water mains, with some requiring temporary isolation, cutting, and reinstatement. With excavation reaching 6 meters deep and lifting pipes weighing over 8 tons, this was the most complex placement of the project so far.

Thanks to the team's expertise, this work ensures the continued reliability of essential services for the community, with minimal disruption during construction and long-term benefits for the area's infrastructure.

Did you know?

The new water and wastewater trunk mains being installed are so extensive that if laid end to end from Adelaide's CBD, they'd reach Roseworthy!

Your questions answered

What's the purpose of the construction compound? Is it a permanent development or temporary for the pipeline installation?

The compound is a temporary project site, housing our offices, staff amenities, and parking. It's also used for storing machinery and construction materials. Once the project is complete, the land will be restored to its previous use.

Will the works affect my bin collection?

If there are any access issues on bin collection days, we will notify you beforehand with alternative arrangements.

Share your feedback

"I would like to express my thanks to the workers who have been working on the section opposite my house on Woodford Road Elizabeth North. Even though it has been very hot they always have a smile on their face and happy to answer any questions that I throw at them. They are doing a great job keeping everyone safe and informed on what's happening. Great job guys!"

Marian, Elizabeth North

As we upgrade our water and wastewater networks, we'd love to hear from you.

Your feedback helps us understand what's working well and where we can improve.
