

06 November 2024

Hello

Advance Notice – Water Tank Upgrade in 2025 – 81 Calton Road, Gawler East**What we are doing**

Our water storage tank at 81 Calton Road, Gawler East is over 100 years old and nearing the end of its operational life. We are committed to providing the Gawler region with a reliable water supply and will be demolishing and rebuilding this tank in 2025, doubling its storage capacity.

When it is happening

Work to set up our site will begin in early 2025 with demolition works to follow. Further notice will be provided closer to commencement in 2025. Works will take approximately 12 months to complete subject to weather and any technical constraints we may encounter.

What to expect

No interruption to your water service is expected throughout this work. If there is a need to temporarily disrupt your service, we will let you know.

Barossa Avenue (between Calton Road and Popham Avenue only) will be closed whilst this project is taking place. Traffic management, signage and detours via Trevu Avenue will be in place and maps will be provided prior to the commencement of works. Access will be maintained for residents of Barossa Avenue opposite these works.

Construction impacts will be kept to a minimum; however, you might experience some elevation in noise and dust particularly during the demolition of the existing tank. Our crews are mindful of the surrounding residential area and will make efforts to reduce impacts to the local community.

If you need help

If you or anyone in your home has specific access, communication, sensory or medical needs please let us know on the below contact details, so we can help you.

If you have any questions or would like additional information about this project, I encourage you to contact me by phoning 1300 SA WATER (1300 729 283) or email project@sawater.com.au

Thank you in advance for your patience and understanding during this important work.

Kind regards

Laura Jones
