UPDATE

SA Water Wastewater Infrastructure Upgrade – Cudmore Terrace closure, Henley Beach

Together with our delivery partner, John Holland Guidera O'Connor Joint Venture (JHGOJV), we are undertaking a major upgrade of wastewater infrastructure in Lawrie St and Cudmore Terrace during 2026 and 2027. These works are essential to ensure we can continue providing reliable wastewater services into the future.

Further to our letter in July 2026, we are writing to confirm that **Cudmore Terrace between Harrison Street and Marlborough Street will be closed from 2 September 2026**, including outside of working hours, for approximately 8 weeks due to deep excavation work whilst we lay the wastewater main across this intersection. Construction hours will be from **Monday to Saturday, between 7:00 am and 5:00 pm**. Saturday works will be undertaken as required to help progress the works and support earlier completion.

Traffic Management

Access to Hill Street and Lawrie Street from Cudmore Terrace will continue to be closed during this time. Detours will be in place via North Street and East Terrace, with detour signage in place. Please see the map on next page for further information.

Lawrie Street residents are unable to turn onto Lawrie Street from Cudmore Terrace during this time and will need to use Northey Avenue.

Looking ahead

Following completion of these works, we will write to you again to advise you of the next phase.

Keeping you updated

If you have any questions or would like more information, please contact us on **1300 729 283** (option 1) or email project@sawater.com.au

You can also visit our WaterTalks page for this project via the QR code and sign up for updates or ask questions.

Thank you for your patience and understanding as we work to improve the wastewater network in your area.

Kind regards,

Laura Jones

Stakeholder Engagement Adviser
